

## ENG

DIMENSIONS:	mm 1050 x 1300 x H 900
TOT WEIGHT:	Kg 110
WORK PLAN	INCORPORATED
WORK PLAN DIMENSIONS:	mm 970 x 1000
MAXIMUM BELTING SIZE:	mm 700
MAXIMUM STROKE TENSION:	mm 650
MAXIMUM STROKE TENSION:	mm 300
FUNCTIONING:	COMPRESSED AIR
MAXIMUM OPERATION PRESSURE:	bar 6

## DESCRIPTION

ECO-COMFORT webbing machine is capable of bending all the elastic belts produced by INTES. The machine speeds up the production of small and medium sized frames such as chairs and armchairs.

This is a pneumatic machine that offers the possibility to regulate the elastic belts tension depending on the type of seat desired and the number of belts used.

ECO-COMFORT comes with a working surface providing the space where to position the wooden frame, already implemented in the structure. Moreover, the working surface is adjustable in height thanks to rotary knobs.

The webbing machine ECO-COMFORT is equipped with various security systems; the materials and the components used were selected to minimise the risks for workers.
